

Integrated Supply Supply Chain Services

Vallen Integrated Supply has been transforming supply chains for over 50 years by offering maintenance, repair and operations (MRO) capabilities that lead to significant cost savings for various industries and business types.

Our customers' challenges are constantly evolving and require comprehensive yet practical solutions. We pride ourselves on our savvy practicality – utilizing real-time data and on-the-job insights to deliver tailored MRO solutions that confidently create the path forward for your integrated supply program.

Supply Chain Management Software: e-Crib

Every customer has access to our comprehensive software suite, e-Crib, which lowers inventories and improves parts availability. Our technology integrates diverse processes in the supply chain and provides tools to help eliminate inefficiencies, optimize performance and best serve your needs.

Procurement and Inventory Management Solutions for Every Size Facility
